Note: 1) There may be some totaling anomalies due to impact of rounding off.
Note: 2) Baky commenced operations in FY26.

1

caury Farms

Coconut and Dairy Farm

Caury Farms is a coconut farm focused on consistent, high-quality production.

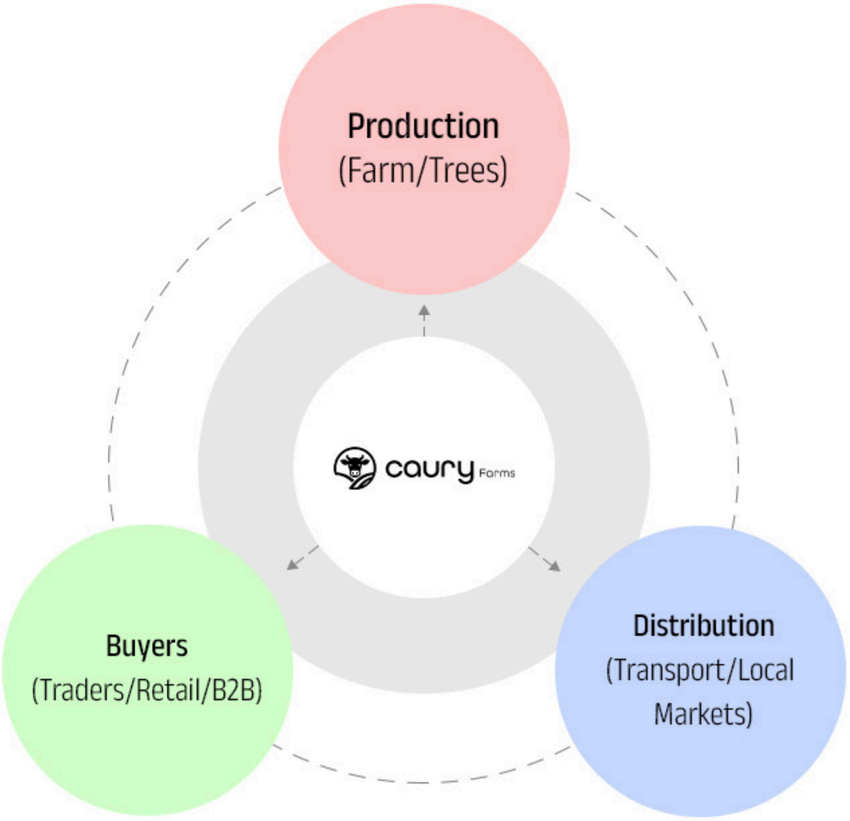
Why is coconut farming complex?

1. **Climate-dependent production** –Output is influenced by rainfall, irrigation, and tree health, requiring careful, continuous management to maintain consistency.

2. **Long-cycle crop system** – Coconut trees operate on long yield cycles, making production planning and output stability more challenging.

3. **Operations-heavy business** – Maintaining quality at scale requires disciplined execution across irrigation, fertilization, harvesting, and labor management.

4. **Fragmented market structure** – Coconut markets are largely unorganized, with price volatility and multiple intermediaries affecting realization.



The outcome – a stable and scalable farming business with consistent cash flow

Disciplined farm operations + Consistent yield at scale + Efficient market realization = **Sustained cash generation**

Caury Farms currently produces ~200–240 tons annually, generating consistent monthly revenue of ~₹4.6L with strong operating margins

** Q1FY26 annualized
Note: 1) There may be some totaling anomalies due to impact of rounding off.

2

Ofran

Corporate Inc

Corporate Legal Firm

Corporate legal services is a complex, expertise-driven business

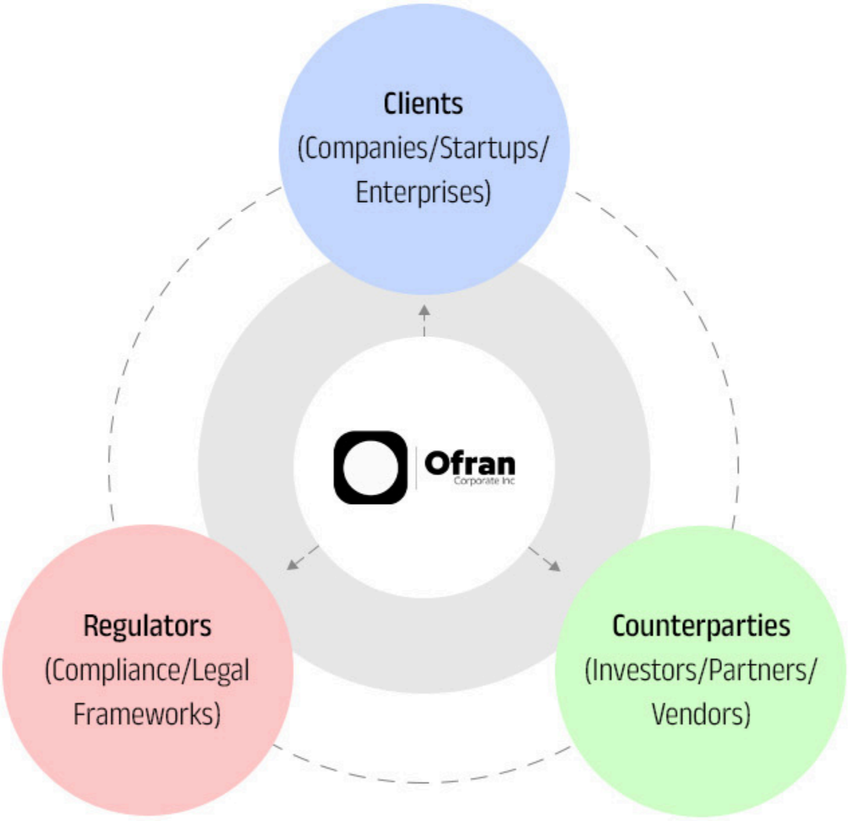
Why is corporate legal work complex?

1. **High-stakes, high-precision work** – Legal outcomes directly impact business risk, compliance, and financial exposure, requiring extreme accuracy and judgment.

2. **Multi-stakeholder coordination** – Engagements often involve founders, management, investors, regulators, and counterparties, making alignment and execution complex.

3. **Expertise + execution-intensive** – Work requires deep legal knowledge combined with structured execution across contracts, compliance, negotiations, and timelines.

4. **India: evolving regulatory landscape** – Frequent regulatory changes and jurisdictional nuances increase complexity in ensuring compliance and advising clients.



The outcome – a high-value, recurring revenue business with sustained cash generation

Expert-led legal execution

+

Strong and recurring client relationships

+

Proven billing and retention model

=

Sustained cash generation

Ofran Inc generates ~₹1.3L/month in FY26 through a mix of retainers, compliance mandates, and deal-based advisory

3

onekit.

Creative Inc.

Creative Agency

Creative services is a dynamic, outcome-driven business

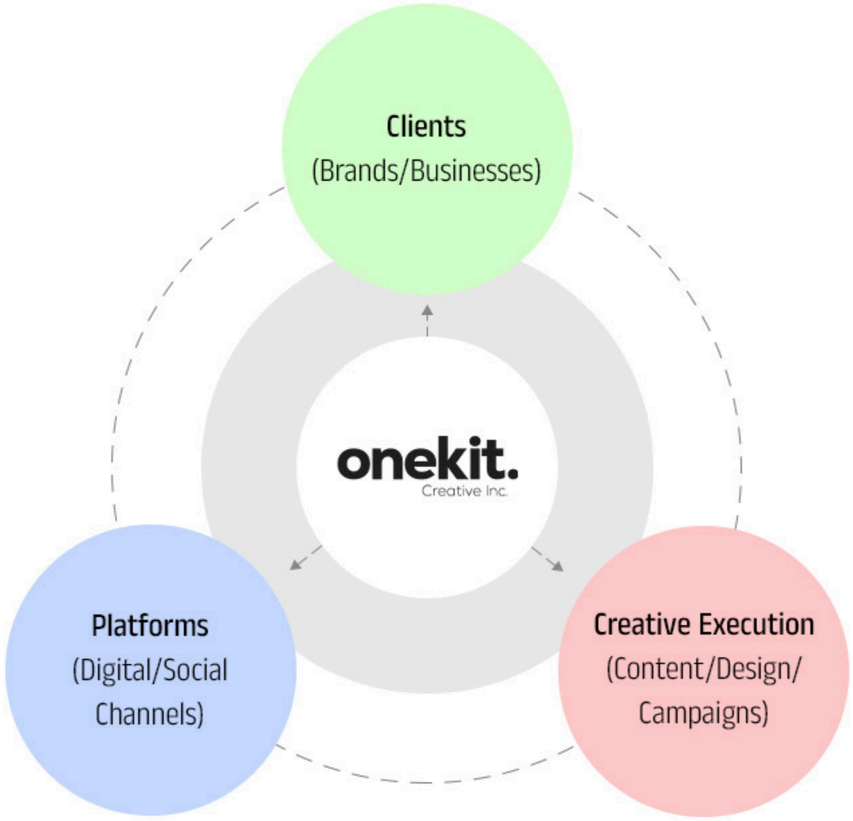
What defines great creative execution?

1. **Creative thinking with measurable impact** – Strong ideas that not only look good but drive brand perception, engagement, and growth.

2. **Seamless collaboration** – Close alignment with founders, teams, and stakeholders ensures clarity and consistency in every output.

3. **Consistent, high-quality execution** – Delivering impactful content requires discipline across design, storytelling, and timelines.

4. **Adaptive to evolving trends** – Staying relevant by continuously evolving with platforms, formats, and audience behavior.



The outcome – a high-value, recurring revenue business with sustained cash generation

Strategic creativity + Long-term client relationships + High-quality execution = **Sustained cash generation**

Onekit Inc generates ~₹70K/month in FY26, driven by ongoing content work and repeat client engagements

4

Baky

Dessert House

Dessert retail is a dynamic, experience-driven business

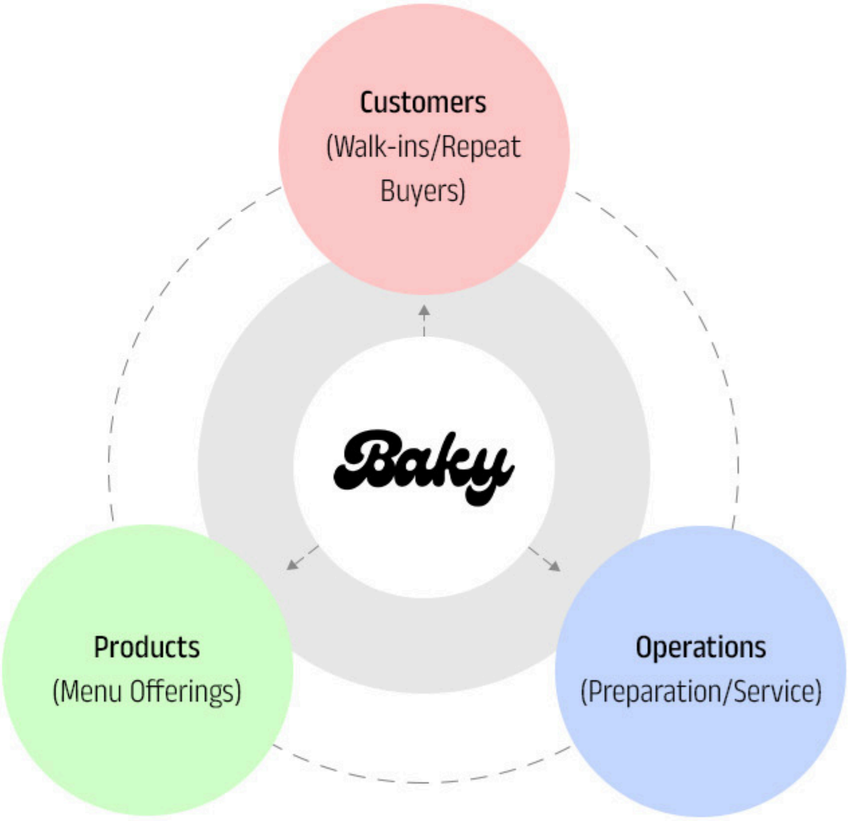
What defines great dessert execution?

1. **Product quality with consistent taste –** Delivering desserts that maintain the same taste, texture, and quality across every batch.

2. **Customer experience & satisfaction –** Creating a delightful in-store and takeaway experience that drives repeat customers and brand loyalty.

3. **Precision in preparation & operations –** Consistency requires disciplined processes across recipes, preparation, storage, and service timelines.

4. **Adaptability to trends & preferences –** Evolving menus and offerings based on changing customer tastes, seasons, and demand patterns.



The outcome – a strong dessert brand with repeat customers and sustained cash generation

High-quality desserts + Strong customer loyalty + Consistent execution = **Sustained revenue growth**

Baky generates ~₹9.4K/month in FY26, with steady demand and improving operational efficiency

Our businesses are interconnected—each one strengthening and scaling the others
